AHMED ABDELAAL

ABOUT

I'm an aspiring software developer with a passion for food and fitness. I was born and raised in Egypt until 2007 when I relocated with my family to the United States.
I love fitness, bodybuilding, and healthy cooking.
I value collaborative work environments and favor the ones that allow the room for individual creativity.
I want to create products that solve people's problems and improve the quality of life while furthering my knowledge and skills as a programmer.
